MUCH INTEREST

Being Shown Over the Plan of Having a Fair For This County—Many Persons Expected to Take Up Project.

Much interest is being shown by the people of Maysville and Mason county concerning the project to establish a county fair in this section and it is thought that there will be something definite done along this line with a few weeks.

The fair as suggested by the Ledger would be a four-day affair, to be held in the early part of the fall. By this time all of the crops have been gathered and there would be a greater number of exhibits of all kinds. At this season, the first of September, all of the fairs in this section of the state are over and thus a fair in this county would not conflict with any others.

The annual fairs at Germantown and Ripley would not in the least be hurt by a fair here but the competition would only become stronger between the exhibitors. This would materially help each fair.

Since Mason county is one of the leading counties in this section of the country in the raising of fine horses and stock of all kinds, there would be ample exhibitions in these lines.

ENTERTAINED WITH CAJONS

Mr. and Mrs. Paul Cullen entertained at their home on Fifth street Tuesday night with a "500" party. Those present were Mr. and Mrs. Roland Steele, Mr. and Mrs. Elithan Faeries, Mr. and Mrs. Lowrey Orr, Prof. and Mrs. William Jones, Mr. and Mrs. Samuel McNutt, Miss Iose Lynch, Miss May Liston, Mrs. James Dwyer.

ENTERTAINED WITH CAJONS

The ladies first prize was won by Miss Iose Lynch, a hand painted plate; while Mr. Roland Steele won the gentleman's prize, a silk tie.

Delightful refreshments were served of fancy ice cream, cakes and candy. The guests left at a late hour after a very enjoyable evening.

There will be a dance Friday evening, January 26, at Neptune Hall. A Saxophone Trio will furnish the music. No invitations have been issued. All are cordially invited. 24-31

Miss Georgia Chambers, who has been quite ill at her home on Forest avenue for the past several days with pneumonia, is improving rapidly.

URNS OVER OFFICE

Mr. Thomas P. Boone, Former Secretary of the Maysville Chamber of Commerce, Given Full Control to Mr. Harry C. Grimsley.

A meeting of the Board of Directors of the Maysville Chamber of Commerce was held last night in the offices of the organization in the First-Standard Bank Building. At this meeting Mr. Thomas P. Boone, former secretary of the Chamber of Commerce, turned in his reports of his work during his stay in this city, which were accepted by the Board. He turned over the affairs of the office to Mr. Harry C. Grimsley, who was recently elected by the Directors to fill the vacancy, caused by Mr. Boone's resignation. Mr. Grimsley will have full charge of the affairs of the body from now on.

Mr. Boone will leave tomorrow for Henderson, Ky., where he has accepted a position as secretary of the Business Men's Club. His family will remain in this city for several months. During the meantime he will make trips to this city to visit his family. He will in all probabilities return to this city for the banquet to be given by the Chamber of Commerce.

Mr. Boone was secretary of the Chamber of Commerce in this city for about fifteen months, coming here from Johnson City, Tenn. During his stay here he brought the Chamber of Commerce to its present prosperous state. He was the leader in bringing the Gibson Garment Co. to this city and it was almost entirely through his efforts that the Tobacco and Corn Fair was such a great success. He was always prominent in all movements for the commercial betterment of the community. We wish him the best of success in his new position.

The new secretary, Mr. Grimsley, is a splendid young man and during his short stay has shown to those with whom he has come in contact that he will be an aggressive leader and under his leadership the organization will doubtless grow to larger proportions. The outlook for a successful year is very bright.

HAS BEEN REAPPOINTED

Mr. Roy E. Kelsey of Brown county, Ohio, has been reappointed as District Superintendent of the Lloyd, Union and Huntington townships and Aberdeen. His term will last two years. Mr. Kelsey is said to be one of the most efficient superintendents ever had and his work has been unusually successful.

Of Sermons Will Be Delivered by the Rev. S. K. Hunt, Pastor of the Third Street M. E. Church.

Beginning next Sunday evening Rev. S. K. Hunt, pastor of the Third Street M. E. Church, will preach a special series of sermons on "Sin." These sermons will all be evangelistic, and preparatory to the special services that it is expected will begin on Easter Sunday. This church is advancing along all lines of church activity, and it is expected that by these special sermons that intense interest will be awakened in the revival effort. The subjects to be treated each Sunday are as follows:

January 28th, "Original Sin."
February 4th, "The Slavery of Sin."
February 11th, "The Unpardonable Sin."
February 18th, "Social Sins."
March 4th, "Do Our Sins Always Find Us Out."
March 11th, "What Does It Mean to Repent of Our Sins?"
March 18th, "Can We Live Without Sinning?"
March 25th, "An Invitation to the Backslider."
April 1st, "The Two Ways."
April 8th, "Our Coming Revival."
A cordial invitation is given everyone to attend these services. You will always find a hearty welcome. There will be good music with special selections at each service. The membership of the church is specially urged to attend and get in line for a great year's work.

FLOOD CREST REACHED

Pittsburg, Penn., January 23.—The flood in the Monongahela and Allegheny Rivers was subsiding today, causing the Ohio River below the point bridge to fall at the rate of more than a foot an hour. The crest was reached at 5 o'clock, when the gauge showed 25.7 feet, more than three feet above the danger mark.

It was estimated that fully 25,000 men had been temporarily deprived of employment, but these were being organized into crews to clear away the tons of debris left by the high water.

Scores of families, who usually have to move from their homes during the flood season, were moving back under police protection, and no accidents were reported. The damage to river craft was heavy, the lee having been the thickest to pass down on a January flood in many years.

The stage at this point this morning was 42.7 feet and rising very slowly. The river will probably be falling by morning and all danger of a flood is passed. The river raised only a foot from four o'clock yesterday afternoon until 7 o'clock this morning.

ENOUGH OF IT GOING ON TO GET US INTO DIFFICULTIES WITH JAPAN

The country will breathe a sigh of relief when the Congress shall get through with the work of tinkering the immigration laws. Except perhaps on the Pacific coast, the sentiment of the country will be in harmony with the protest made by Senator Gallinger on Wednesday against the introduction in the pending bill of any provisions calculated to increase the tension with Japan, and, indeed, against any unnecessary public discussion of the relations of the United States and the Island Empire. This nation has its own duty to protect its interests, and it will not be deterred by any consideration of fear as to what other nations may think about us; but at a moment when there is a deliberate and organized propaganda to make mischief between this country and Japan our statesmen are justified in refusing resolutely to be parties to it. The Congress will find difficulties enough in framing provisions for the exclusion of genuine "undesirables" without doing ourselves more injury than good. For example, the amendment adopted in the Senate to keep out transient laborers, who have no intention of becoming citizens may possibly interfere with the legitimate movement of liquid labor and do more harm than good to American industry.—Philadelphia Public Ledger.

TRANS-PACIFIC SALES TO U. S.

Australia and New Zealand are on the other side of the globe, but well within the American market. During the first 11 months of 1916 our imports from them totaled \$54,000,000, an increase of \$24,000,000 over the similar period, 1915, \$31,500,000 over the 1914 period, and \$41,000,000 over the 1913 period, nine months of which was under the Republican protective tariff law. During the 1913 period we had a favorable balance in our trade with these two islands of \$24,000,000. During the 1916 period it was \$20,000,000. Much of our imports from Australia consisted of wool, and we might just as well have had the duties on it for the sake of the revenue. The belligerents had to have woolen goods at any price, but the millions of revenue we lost from this product would have been mighty welcome to a bankrupt Treasury. The farmer will have these two countries to reckon with after the war, if we still cling to the present tariff policy.

That heavy demand for cents, nickels, and dimes, which is embarrassing the mint managers, looks mighty queer in these days of unparalleled prosperity. What do you suppose people can get for such coins?

BROKERS' SALES DATA DEMANDED IN LEAK PROBE

Stock Exchange Board Asks Members To Furnish Records During Time of Alleged Huge Profits—Action Taken After Threat By "Probers."

New York, January 23.—Confronted with a threat by the House Rules Committee in charge of the "leak" inquiry to force the production of brokers' records if not produced voluntarily, the Board of Governors of the New York Stock Exchange tonight requested every member of the Exchange to make available for the committee the desired data. The records sought cover the period from December 10 to December 22 during which time, it is alleged, persons in possession of advance information on the President's peace note made huge profits in the stock market.

The action of the board followed notice given the Rules Committee during its session here today that action on the committee's request for the production of the brokers' accounts, including the "real names" of customers who dealt in the market during the period mentioned and the extent of their operations on either side of the account, had been postponed.

Surprised and indignant over the action of the board, the committee advised Harry G. S. Noble, president of the Exchange, who, accompanied by counsel, brought news of the postponement, that it would not modify its request in any manner. If the board had any suggestions of modifications, Noble was told, the committee would receive them, but if it failed to obtain the production of a desired account the committee would exercise its power and force each broker individually to produce them. Prompt compliance by the Board of Governors, the committee made clear, was desired.

An offer to receive the names of customers in sealed envelopes apparently appealed to the Board of Governors. In a set of resolutions adopted after a hurriedly called meeting the board asks specifically that the members furnish the chairman of the Clearing House Committee with statements showing on what stock customers were long and short at the end of each day between December 10 and December 22, the real names of the customers, the stocks they dealt in and the number of shares each, what Clearing House stocks were borrowed, when and from whom borrowed, and when returned also are to be included.

Members further are requested to advise the secretary of the Exchange if they received any cable or wireless communication from abroad with reference to the President's peace note before it was made public here. This request was in keeping with the motion adopted by the Rules Committee today.

Committee Is Self-Blind

The committee, advised by telephone of the action taken by the Board of Governors at their second meeting, expressed satisfaction.

Mr. Noble and Samuel F. Streit, chairman of the New York Stock Exchange Clearing House Committee, were the only witnesses examined today. They were questioned by Mr. Whipple as to the power of speculative cliques to manipulate the market by "short" selling at the expense of "the leak beneficiaries. Both witnesses public and taking advantage of "unfavorable news" in order to depress prices and "cover" at a profit. "Shorts" are alleged to have been required to describe in detail the operations of the stock exchange machinery with special attention to

methods used to sell the market "short." Mr. Whipple brought out with particular emphasis that the so-called public seldom sold "short," the large majority of such transactions being conducted by professional operators. The attorneys also elicited the information that it was the practice of brokers, with the consent of their customers, to loan stocks but on margin to other brokers, who, in turn, used them for "short" sale transactions. Thus it was explained the stock of the customer who hopes to profit by a rising market would become a weapon in the hands of the "short" sales speculators who hope for a falling market.

"That is," pursued Mr. Whipple, "a man may furnish the petard on which he is hoisted."

"Shorts" Are Defeated
"That is possible," Mr. Streit said. Mr. Streit defended "short" selling as a necessary requisite to a "free market," and said that experience in Germany and France had shown it was inadvisable for economic reasons to

dispense with it. He conceded, however, that if "short" selling should be abolished there would not be so much speculation.

"The short sale then," remarked Mr. Whipple, "is the foundation of speculation."

"I would not say that," Streit replied. "I mean that there would not be such a volume of speculation, and, incidentally, the speculative risks would be greater."

The examination of Mr. Noble revolved largely around the question as to whether there was actual manipulation by combinations of speculators on the "short" side of the market. Noble testified that he had read in the newspapers that such operations were conducted, and added that none ever had been investigated by the Board of Governors.

GERMAN RAIDER LEAVES DESTINY NOT KNOWN

Buenos Aires, January 23.—The German raider has apparently disappeared just as mysteriously as she arrived in the South Atlantic. Her next appearance in some far distant part of the world, heralded by another "drive" on allied shipping, was predicted today.

Rumor that the British cruiser Glasgow had sunk the raider was entirely discredited today.

The newspaper Standard today published an unconfirmed rumor that a submarine had stopped the Spanish steamer Reina Victoria Eugenia yesterday at the mouth of the River Plate.

According to this report the steamer was finally permitted to proceed. Steamers arriving here today brought word of the institution out of Rio de Janeiro of a "convoying squadron" for protection of allied shipping.

Only the large merchantmen are affected, however. These are met far at sea by allied warships and escorted into Brazilian territorial waters. Similarly on outward trips, warships guard such vessels until they are well out at sea.

All vessels which arrived in port today reported uneventful voyages, with no sighting of strange craft. All of them, however, saw the sea plentifully sprinkled with war craft searching for the raider.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

a trial. I still use Gardui when I feel a little bad, and it always does me good." Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Gardui, the woman's tonic. You cannot make a mistake in trying Gardui for your trouble. It has been helping weak, ailing women for more than fifty years.

First Aid to Nature

Wide awake people in all walks of life know that the Drugless Art of Chiropractic has brought hope and happiness in many cases where the Art of Medicine has failed.

This "Science of the Nerves," now 21 years old, is a sound, sensible system for restoring lost health without using the knife or drugs. Its main principle is that nature will commence to throw off sickness, just as soon as full and free nerve force stimulates the affected part.

Spinal adjustments made by the Chiropractor tend to bring about this vital nerve activity throughout the body—heart, stomach, lungs, kidneys, liver, bowels, spine, brain, etc. Ask for booklet.

11 STANDARD BANK BUILDING**'SEPTEMBER MORN'**Coming to Washington Theater Next
Tuesday After Successful Run
in Chicago.

"September Morn," the fun show of tunes and tangles, book and lyrics by Arthur Gillespie and music by Ambrey Stanifer, after a long run at the La-Salle Opera-House, Chicago, comes to the Washington Theater, Tuesday night, January 30th.

"September Morn" is one of the brightest, cleverest, wittiest, prettiest entertainments ever seen on any stage. It sparkles. It has humor, melody, color, spirit, and a score that holds the auditor with its swinging hitting airs. The book by Arthur Gillespie, is the kind of fooling that encourages worried people to forget their troubles. It has spice. It is not like stale soda water. The fizz is there. At the same time there is nothing to offend. It all gets over the foot-lights because it is very much alive. You never have time to sit back and rest so contagious is the humor and so persistent is the merry revelling.

One of the striking features of "September Morn" is the remarkable chorus, these clever girls work in perfect harmony to the theatergoer. The cast is composed of members who have been seen in some of the best musical successes and the production readily accounts for the marvelous success the piece has achieved. It contains more song hits than any other musical offering presented in years. The swinging melody, "September Morn," is the vogue everywhere, while the other effective songs are: "When a Little Boy Loves a Little Girl," "A Sparrow in the Butcher Shop of Life," "Where is the Pleasure in Wine and Song—if the Woman is Not There?" "The Sunshine Girl," "Beautiful Dreams I'm Dreaming." Seats are on sale at Crane & Shafer's Paint Store.

MAYSVILLE, KY**ANNOUNCEMENT**

We are authorized to announce Elmer L. Donovan of Sardis precinct, as a candidate for Assessor of Mason County. Subject to the action of the Democratic Primary August, 1917.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Middleport, Ohio, January 23.—The Pomeroy Bend is the heart of one of the largest coal fields in Southeastern Ohio, and yet there is a coal famine here almost as acute as in the large cities. The demand for shipment is so great that it is almost impossible to get fuel for domestic purposes. The Caloway schools, in Sutton Township, had to close down the other day for lack of fuel, although the school building is located within a quarter of a mile of one of the largest mines in the county.

ILL DIE FOR CAUSE," SAYS JAIL-ED WOMAN

New York, January 23.—Efforts of her friends failed today to obtain the release of Mrs. Byrne, sentenced to thirty days in the penitentiary at Blackwell's Island for engaging in birth control propaganda. Mrs. Byrne, a sister of Mrs. Margaret Sanger, was brought back from the island on a writ of habeas corpus sworn out in the Federal Court.

The writ was obtained on Mrs. Byrne's petition that her imprisonment was unconstitutional. Her lawyer argued that she was being illegally restrained of the "free exercise of conscience and the pursuit of happiness," but the Judge held that the proper place for her to seek release was in the State and not the Federal Court.

Mrs. Byrne, who already has served about thirty hours of her sentence in the penitentiary, asserts that she will continue a hunger strike, which she began yesterday, and "die for the cause," if necessary.

CONGRESS IS NOTIFIED OF ISLAND PURCHASE

Washington, January 23.—Congress was notified formally by President Wilson today of the exchange of ratification of the Danish West Indies purchase treaty, and asked to provide at the present session the \$25,000,000 the United States has agreed to pay for the islands.

The revenue bill now being framed in the House will authorize a bond issue to furnish this money.

Sovereignty over the three little islands passed to the United States upon the exchange of ratifications, but the American government actually will not take possession until the purchase price has been paid. Then the flag will be raised with formal ceremony, and the Atlantic fleet probably will rendezvous at St. Thomas, where a great naval base is to be located.

VIRGINIA GOING IN ELK RAISING BUSINESS

Bristol, Tenn., January 22.—The State of Virginia will experiment in the development and production of elk herds. The first consignment of sixteen elks has just been received at Arendia, Hotcourt county, that State, and will be cared for there until spring, when the animals will be turned loose in the mountains of the region. They were captured in the Yellowstone Park reservation by Howard Enton, a veteran hunter and ranchman. John H. Parsons, State Game Commissioner, has arranged for bringing another consignment of 100 head to the Virginia mountains. It is the opinion of the State game authorities that Virginia will prove a chosen abode for elk herds.

ANOTHER ARTICLE

In Regard to the Mid-Year Promotions—New System Will Be inaugurated Monday That Is Now Being Used In All of the Leading Schools.

One advantage of city over rural schools is that in the city plan, as usually administered, the teacher has one or two grades while in the country school the teacher has from five to eight grades. Under such management it is easy to appreciate the difficulties of the country teacher as well as the unsatisfactory work upon the part of the pupils. Maysville because of the physical features of the valley, "three blocks wide and three miles long" has been divided into four different districts. In none of these districts are there sufficient children for eight teachers or one for each grade as it should be. As an accommodation to the people the children have been allowed to attend the building nearest them which has forced upon the administrative department of the schools the plan of having the 1st, 2nd, 3rd, and 4th grades taught in four different places.

If there were enough pupils in each building for a unit, that is for eight teachers, the present distribution of children would be admirable, but when as at present, the 3rd grade, for example, is taught in five different rooms when there are pupils enough for only three, there is too much lost in efficiency—time and money—at the expense of having a school building at one's door. Miss Yancey has been fighting nobly against the same proposition—the one-room school at each farmer's door with insufficient money, not enough children in any grade to arouse the least bit of enthusiasm and class rivalry—the other side of the picture—the consolidated school with directly opposite conditions that make for progress and efficiency.

Maysville has four splendid school buildings—three white, one colored, that are as good as any city in size. By using the First District and Center Graded Buildings as one unit and the Forest Avenue and Sixth Ward as another, the problem is solved very satisfactorily. The West End buildings adapt themselves to the plan much better than the East End. The only real good solution for the East End is to add four rooms to the Forest Avenue Building. West of Limestone Creek we purpose to have a 1st and 2nd grades in both buildings to meet the objection of forcing little children to walk so far. In reality the objection could not be well founded as in the majority of cities this size, they have only one school building while we would have two different units under the suggested plan with no children walking unreasonable distances.

I feel quite sure that we have no parents so unreasonable about the question of what building they will attend as to stand in the way of their children's successful progress in the schools. In the last analysis the whole machinery of the public schools exists for no other purpose than the child's welfare, which must be interpreted in the light of "the greatest good for the largest number."

In tomorrow's paper we will give the exact placement of children to take effect Monday, January 29th.

W. J. CAPLINGER.

ONLY THREE HOUSES

Report Sales to This Office Yesterday—Much Tobacco Being Brought Into the Market.

Only three houses reported sales to this office yesterday, the Amazon, Home and Independent-Central. These houses totaled 297,525 pounds at an average of \$18.35 per hundred pounds. There were no sales at the Liberty, Growers and Peoples and the Farmers and Planters reported blocked sales.

The tobacco is still pouring into this market at very rapid rate, although there was not as much tobacco coming in yesterday as there was the day before. The farmers are anxious to take advantage of the good prices and are getting their tobacco to the market as soon as possible.

Yesterday's average was a record breaker for this market. Never before in the history of the breaks in this city has there been such a high average for any one day. The market average this week will be the highest in history unless there is a great slump today and tomorrow.

The following were the sales yesterday:

RESTRAINING ORDER

And Mandatory Injunction Against Ohio River and Columbus Railroad Sought by Village of Georgetown and Ripley—Hearing Will Be Held Today.

The Ripley Bee this week says: A suit styled The Villages of Ripley and Georgetown, Ohio, vs. Charles Fishel and John D. Marks, operating a partnership known as Fishel & Marks was filed in the Common Pleas Court of Brown County, last Saturday. This is the beginning of a fight by these two towns to keep The Ohio River & Columbus Railroad from being torn up. The petition stated that inasmuch as the Village of Georgetown had granted a franchise and right of way over the old roadbed from Georgetown to Sardinia, and granted other privileges with the understanding that a railroad should be built, and that the Village of Ripley had likewise granted a franchise through its streets and granted other privileges for a similar purpose; and that houses and factories had been erected because of said railroad, it was set forth that these villages and property owners would be materially damaged by the wrecking of the Ohio River & Columbus Railroad. The petition asked for a mandatory injunction and restraining order against Fishel & Marks, restraining them from tearing up the tracks and compelling them to operate said railroad.

General Manager Charles J. Fingert went to Columbus, Sunday, where he consulted the Public Utilities Commission. As a result of this consultation Manager Fingert ordered all operations to cease pending a hearing before the Commission on Thursday of the cases of the Village of Georgetown, the Georgetown Business Men's Club, C. Elslager, and S. L. & L. L. of this hearing will determine the action to be taken by the Public Utilities Commission.

TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Maysville

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lumbago, backache, etc. Urine poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Maysville woman tell of her experience. Mrs. J. C. Hays, 493 W. Second St., Maysville, says: "About six years ago, I suffered from a severe attack of kidney trouble. My back first became lame and ached dreadfully. Pains shot through it clear up to my shoulder blades. My kidneys were irregular in action, too. A few boxes of Doan's Kidney Pills, which I got at the Chenoweth Drug Co., helped me a great deal. My kidneys became normal and the pains left my back. I have used Doan's Kidney Pills for a similar attack since and they have proven satisfactory."

Mrs. Hays is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Hays had—the remedy backed by home testimony. 50c all drug stores. REPUBLICANS OF HOUSE

Abandon Open Meetings—Secret Caucus Adopted to Harmonize Differences In Party—Liberal Program Urged By Gardner—G. O. P. Members Against Revenue Measure.

Washington, January 24—Republican members of the house tonight formally dropped the policy of holding open public conferences over party matters and by a vote of 108 to 15 agreed to secret caucus to harmonize differences.

The Republican conference have been open ever since the days of the Progressive fight in the house led by Victor Murdock, of Kansas. At the outset of tonight's meeting Representative Humfrey, of Washington, moved an executive session and there was a half hour discussion that led to the final decision to clear the house galleries and proceed in secrecy. Representative Gardner, of Massachusetts, and fourteen others stood out for open session.

Representative Gardner, on whose petition the conference was held, urged his colleagues to abandon the policy of strict and undeviating conservatism which has been so marked of late years except during Roosevelt's second term and submitted a legislative program for the party. His program included unemployment insurance, old age insurance, a minimum wage for women and children, and an eight-hour day for women and children with an overtime, compulsory arbitration of all transportation disputes, compulsory military training, immediate preparedness, the budget system and elimination of "pork" in public buildings and rivers and harbors acts.
